Recap the Primary
Election and Preparing
for the General
Election Cycle

I am a Republican because . . .

I BELIEVE free enterprise and personal initiative have brought this nation opportunity, economic growth and prosperity.

I BELIEVE our nation needs to protect the dignity of every individual and guarantee the right to life, liberty, and the pursuit of happiness.

I BELIEVE in a limited government that practices fiscal responsibility and works to lower taxes so individuals can keep more of their hard earned money.

I BELIEVE in a strong national defense to ensure that Americans remain safe, terrorists are defeated, and democracy flourishes throughout the world.

I BELIEVE the Republican Party is the best vehicle for converting these ideals into positive and successful principles of government.

Why does the elephant represent the republican party?

Nast's initial drawing of this symbol of the Republican Party occurred in a cartoon titled "The Third Panic," and it depicts the elephant as bounding into a pit across broken boards with the words inflation, reform, and repudiation written on them. Nast's drawing represents his view of the party's decline, especially in light of a financial panic at the time. According to Nast, the Republicans were falling victim to scare tactics of the Democrats and abandoning their party's platform. To his amusement, the Republican Party adopted the elephant for it represented both dignity and strength. These qualities were considered admirable. In some of of Abraham Lincoln's scribbles was found sketch of an elephant. The original symbol of the Republican Party was the Eagle.

ELEPHANT FACTS

Are elephants afraid of mice? No, this is a myth. If an elephant were to encounter a mouse, it would likely ignore it. If the elephant was bored, it might try to crush a mouse with

Do elephants ever forget? Although elephants do have good memories, they forget once in a while. Possessing a good memory helps elephants survive in the wild. It enables them to find food and water during times of drought and avoid danger when necessary.

How many muscles does an elephant's trunk contain? The trunk is made of many different types of tissue, but contains no bone. The number of muscles
