*EQUIPPING PARENTS TO PRESERVE,  
PROTECT, AND EXERCISE THEIR  
RIGHTS AS PARENTS*

This event will bring awareness about the current national attack on parental rights and the most effective long-term solution to this attack, the Parental Rights Amendment. Parents will leave the meeting with information about the importance of preserving, protecting, and exercising parental rights in order to protect our children. Parents will learn what God expects from Christian parents and how following His teaching will ensure that we raise up God-fearing children for the next generation. Parents will be equipped with information that will empower them to become active in contacting their representatives to request that they support the Parental Rights Amendment and that they do all that they can to achieve this most important protection of parental rights for the future of all families in America.
