

WHY VOTE A-Z

To save America, we must vote against radical Democrat agendas. Kamala Harris now pretends to reverse her positions on key issues, but for years has not publicly disagreed with Biden's agenda, has covered up his dementia, and called him a great leader. Bernie Sanders recently said Kamala is being pragmatic, that she has changed her positions to get elected. Use **ivoterguide.com** for trustworthy election information.

Amendments: Democrats nationwide are abusing the US Constitution's Amendments; the First for freedom of speech, religion, and assembly; the Second for the right to bear arms; the Fourth for protection from illegal search and seizure; the Fifth for due process, the Sixth for a speedy trial by an impartial jury; and the Tenth by usurping authority reserved to the States.

Border: 10-20 million illegals are in the US, many brought by cartels that rape most women enroute, traffic drugs and sex slaves, bring fentanyl that kills multitudes, force victims to repay their fees, and control 30% of Mexico, even shooting down government planes. Immigration applicants are being flown to US cities directly from their countries to be investigated later. The "border bill" defeated this year, which Kamala says she would sign, would allow up to 5,000 illegals a day to enter and let authorities waive the cap, make "catch and release" the law, provide free lawyers to illegals, and grant work permits. 156 House Democrats on 9/18/24 voted against immediately deporting illegals convicted of sex crimes.

Crime: Unrestrained riots cost billions of dollars in property damage and dozens of lives. Venezuelan gangs control apartments, and illegals rob, rape, and murder innocents. Kamala said the riots in 2020 would continue through the fall election, and she raised bail money for violent participants.

Diversity, Equity, and Inclusion: Practicing this has severely weakened many government agencies including the Secret Service and military.

Electric vehicle mandates: These will overwhelm the electrical grid and require more rare elements than we know exist on earth.

Fracking: This can make the US, energy dominant, rather than buying from enemies. It's been fought by Democrats and Harris' recent fracking support is almost certainly a political ploy.

Gun confiscation: Kamala Harris has pushed mandatory gun buybacks. The Second Amendment was not about hunting, but protection from tyranny. Every totalitarian government first disarmed the public.

Housing: Illegals make housing expensive and scarce. Kamala's proposal to give first time home buyers \$25,000, according to economists, would raise housing costs for everyone.

Israel: The Biden administration slow walked delivery of arms, already purchased, Israel, denied certain vital assets, and in effect, made Israel look as bad as Hamas.

Inflation: Is your cost of living better off than it was four years ago under Trump?

Justice Department: The DOJ persecutes pro-lifers, political opponents, and January Sixers who did not even enter the Capitol. A high official in the Southern District of New York was recently taped saying Bragg's charges against Trump are trumped up and hundreds of similar cases were not brought.

Killing babies: Democrats want to pass a nationwide law, making abortion legal everywhere, up to birth.

Leaving Afghanistan: Biden weakened intelligence collection and influence, by leaving billions of dollars of high-tech weapons to the Taliban and abandoning the Bagram air base, which Trump planned to keep.

Marxism: Kamala's father was a Marxist professor, she lived formative years in liberal Montreal, Canada, and attended a liberal college. Her policies scream, "Take from some people to give it to others."

Navy: The US is taking more ships out of service than are being built, while China is majorly outpacing US shipbuilding. And US ships in service are understaffed.

Over regulation: Unelected bureaucrats are micromanaging industry, agriculture, education, forestry, and construction, crippling growth and innovation, and costing many jobs.

Parental rights: Harris wants the practice continued of helping children, without parental knowledge, to change sexual identity, including hormone treatments. And most sex ed programs are radical.

Packing the Supreme Court: Democrats want to increase the Supreme Court from 9 to 13 justices to gain a radical majority. Already, current Justice Brown said she could not define the word, "woman."

Pennsylvania in 2024: Dan Bongino said on 9/11 that Harris cannot win the election with Pennsylvania.

Queer agenda: Democrats, with cooperation of teachers' unions and much of the media, actively promote deviant agendas, including pornographic books in school libraries.

Racism: Stalinists pitted the rich against the poor. Democrats constantly exploit race relations.

Senate: Democrats want to end the filibuster that effectively requires 60 votes to let legislation come up for a vote. Once legislation has come to a vote, with an evenly divided Senate, Kamala has cast the most tie breaking votes of any vice president in history, including the two massive Biden spending bills. Pennsylvania Senator Casey, running again now, voted for Biden's agenda 98% of the time.

Statehood for Puerto Rico and Washington D. C.: Democrats are pushing this to give them four more Senate seats, making it almost certain they would control the Senate for many years. The Founding Fathers did not want D. C., the seat of Federal government, to have influence over that government.

Terrorism: Terrorists are running loose in America. Foreign criminals brought here for prosecution are being released into America when their prison terms are up.

Undoing the Trump tax cuts: The Harris plan to let Trumps tax cuts expire and adding more taxes, amounts to the greatest tax hike in history, and economists say it will quickly destroy America's economy. She also wants to pay, with tax funds, for sex change surgery for Americans **and** Illegals.

Voter ID: Democrats oppose voter ID, claiming it keeps minorities from voting, as if minorities are too stupid to get ID. The real reason is to gain illegal votes. If 10,200 illegal voters were found on rolls in 3 states that carefully watch voter rolls, how many are there in states that tacitly encourage illegal voting? Arizona just found that 97,000 people voted in recent decades, without proof of citizenship.

Women's Sports: Democrats have put biological men in women's locker rooms and rest rooms, and let them steal titles from women.

Xenophobia accusations: Democrats accuse conservatives of being afraid of strangers and foreigners, thus unreasonably opposed to immigration. Conservatives oppose **illegal** immigration.

Yielding sovereignty: Democrats are all too happy to yield to international pressure, or organizations like the left-wing World Health Organization, and the radical United Nations.

Zero based budgeting: This requires expenses to be justified and reauthorized periodically. Democrats hate it. They want to keep baseline budgeting that uses current spending levels as the "baseline" for the new budget. Thus "small" increases this year are added to previous ones, in a snowball effect.
